

Made a Difference

M.A.D. OF THE MONTH

NAME: Amisha Sharma
Designation: Engineer – Software Development

Accomplishment: Amisha's exceptional accomplishment in developing the Object Detection report with runtime crop image support in Crystal Report is truly praiseworthy. With the inclusion of 1000 events and 30000 images, all generated within an impressive timeframe of less than 4 minutes. She is very adaptive and fast learner. Completed object detection license checking functionality throughout project by creating stub code. She is an excellent team player and always ready to help everyone without compromising quality of her task and that makes her an integral member of team. She has completed all sprint tasks in time without any defects. Her collaborative mindset has improved team efficiency and overall reliability of the product. Also she has done P2P load testing by creating client simulator along with sprint work. She completed her task without any quality issues.

Made a Difference

M.A.D. OF THE MONTH

NAME: Gopi Patel
Designation: Team Lead – Direct Marketing

Accomplishment: Gopi is surely leading by example!! She has successfully completed all the practical labs and achieving L1 and L2 certifications across all domains in the LMS. Her dedicated approach to enhancing and expanding product knowledge is excellent. This commitment undoubtedly enhances her performance in all the tasks that she undertakes. She displays remarkable work and is delivering good work consistently. On that note, it's a great opportunity for you to lead your team towards similar achievements and also by sharing your strategy and insights on how you managed to clear all certifications, as this will significantly benefit your team's probabilities in clearing the certifications. Kudos to Gopi!
