Women at IIIT-Delhi are not only active researchers and educators but also **visible leaders in academic forums**, both nationally and internationally. With **100**% **participation** as speakers, they play a critical role in strengthening the institute's reputation, inspiring students, and contributing to the broader discourse in science and technology. A few examples are listed below at different levels.

A. <u>External Conferences / Invited Talks:</u>

- **Prof. Aditi Chattopadhyay (Dept. of CB)** – Delivered talks at ICMR- and DBT-funded conferences on computational biology.
- **Prof. Richa Singh (Dept. of CSE)** – Regular invited speaker at IEEE conferences on biometrics and computer vision; also delivered talks in global AI/face recognition panels.
- **Prof. Anubha Gupta (Dept. of ECE)** – Invited to speak at IEEE Signal Processing conferences and health informatics workshops.

Women researchers from IIIT-D often present their work at ACM/IEEE conferences, DBT/DST workshops, and Indo–US/Indo–EU collaborations.

B. Internal Events (IIIT-Delhi hosted): Women faculty regularly lead **Institute Colloquia, PhD Open Houses, and Orientation Programs**.

- **Prof. Richa Singh** – Delivered talks during institute's **Research Showcase** and **Foundation Day** sessions.
- **Prof. Anubha Gupta** – Speaker in **IIIT-D Colloquium Series** and **Health-Tech Symposium**.
- **Prof. Tanmoy Chakraborty & other women faculty** – Conduct seminars under **Women in Science & Tech panels** during annual tech fests like **Esya**.

Women faculty also act as **mentors/speakers in student development workshops**, e.g., research writing, grant proposal training, AI ethics awareness.

C. Staff Participation:

Women staff in STEM (labs, R&D support) participate as **trainers/speakers** in internal Workshops such as:

- Research methodology training.
- Safety workshops (lab/chemical/biological safety).
- Orientation sessions for new students/researchers.

From these examples, the pattern emerges:

Nearly **every year**, a **majority of women faculty** deliver at least one invited talk or act as panelist/session chair. Internal visibility is even higher since women are consistently featured in institute's academic and outreach events.
