

KEI CSR Update

Strengthening Future-Ready Education Through STEM Labs in Delhi.

KONE's commitment to building sustainable cities and enabling inclusive growth, KONE India CSR, in partnership with Smile Foundation, inaugurated STEM Labs at two schools Sarvodaya Kanya Vidyalaya in Ashok Vihar and Wazirpur, in Delhi. The inauguration was led by **Ms. Meenakshi Chaudhary, AGM, and Mr. Abhijeet Gautam, Senior Manager – Service.**

STEM education is essential in preparing young minds for a rapidly evolving, technology-driven world, yet many public and low-resource schools lack access to quality, hands-on learning infrastructure. Addressing this gap, KONE CSR is strengthening school ecosystems by establishing experiential STEM Labs that promote curiosity, critical thinking, and problem-solving.
